INTERNATIONAL CREDIT UNION DAY

DREAMS Thrive HERE

THURSDAY
OCTOBER 19 2017

There's a special day coming up for credit unions and their members, and we can't wait to celebrate it with you! It's called International Credit Union (ICU) Day, and it's celebrated by members and credit unions all around the world. This year's ICU Day theme, Dreams Thrive Here, perfectly illustrates the spirit of the credit union movement. We're looking forward to celebrating all that credit unions do for their members, and to showing members our appreciation throughout the week of October 16-20. We hope you will stop by for treats, refreshments, and free coin counting* all week long!

*Coins must be deposited into member's account.

Member Appreciation Day

Friday, October 20th
11:00am - 3:00pm

Stop by the Credit Union for a free hot dog, chips and pop!

TECH TALK:

October Is National Cyber Security Awareness Month

Become Privacy Savvy

You already know the basic safety and security precautions, like not talking to strangers and looking both ways before crossing the street. But in today's digitally-connected world, it's just as important to learn about online safety. This October, we're recognizing National Cyber Security Awareness Month by helping young members become privacy savvy with this simple concept:

STOP and take safety measures.

THINK about the consequences.

CONNECT knowing you've taken steps to safeguard yourself and your family.

Share with care: Remember that what you post can last a lifetime. Consider who might see your post and how it might be perceived in the future.

Personal information is like money: Information about you, including your name, age, address, and even the games you like to play or what you search for online, has value. Value it and protect it.

Post only about others what you would like them to post about you: This golden rule applies online just as much as it does in person. What you do online can positively or negatively impact other people.

Protect your privacy: Ask an adult to help you identify safe and trusted websites and apps and to ensure your privacy settings are set correctly.
